Recall #: CANR35 | Campaign R35 - Certain 2016-2017 model year Tacoma vehicles - Rear Differential Leak

Recall Date: 2017 Apr 24

Recall Description

The subject vehicles are equipped with rear differential carriers assembled to rear axle housings. Due to potential sealing surface contact variation, there is a possibility that the sealing performance may degrade and the nuts holding the differential carrier to the axle housing may become loose. If this were to occur, the rear differential may leak oil. If the vehicle is continuously operated in this condition, the rear differential could become damaged, which can result in noise and reduced propulsion.

Remedy

Toyota dealers will check the rear differential for any oil leakage. If no leaks are found, all fasteners will be re-tightened. If leakage is found, the rear differential carrier gasket will be replaced with a new one, and new fasteners will be installed. If rear differential components are damaged, the rear differential carrier assembly will be replaced with a new one. This remedy will be at no cost to customers.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit [Toyota's website](#).

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
